

## MAJOR GLENN COURT-MARTIAL.

Several Officers Testify They Have  
Taken the Water Cure.

SAY IT IS NOT DANGEROUS.

But Admit It Produces a Fear of  
Death by Strangulation in Man  
To Whom Administered.

Manila, Monday, June 9.—The members of the court-martial which tried Maj. Edwin F. Glenn of the Fifth Infantry, who was charged with administering the water cure to Filipinos, have returned to Manila. The court held its sessions at Catbalogan, island of Samar.

The Glenn court-martial refused to admit evidence from places outside of the Philippine Islands which was brought forward to show that practices similar to the water cure had been conducted by the police of New York in 1864, when Brig. Gen. F. D. Grant was one of the police commissioners. Gen. Grant was president of the Glenn court-martial. Major Glenn, Surgeons Jones, Rhodes and Beal, and Lieut. Canor testified that they had taken the water cure, that it was not dangerous, but that it produced a fear of death by strangulation in the man to whom it was administered.

The Glenn court-martial refused to admit evidence from places outside of the Philippine Islands which was brought forward to show that practices similar to the water cure had been conducted by the police of New York in 1864, when Brig. Gen. F. D. Grant was one of the police commissioners. Gen. Grant was president of the Glenn court-martial. Major Glenn, Surgeons Jones, Rhodes and Beal, and Lieut. Canor testified that they had taken the water cure, that it was not dangerous, but that it produced a fear of death by strangulation in the man to whom it was administered.

At the trial by court-martial of First Lieut. John E. Cook of the Philippine Scouts, who was tried by court-martial for manslaughter on the charge of having ordered the execution of a native, the defense attorneys, who were ordered to this effect and declared that the men in question were shot without his knowledge, while endeavoring to escape.

The reports to the United States army transport Sumner and the former hospital ship Relief, the latter having been used by Gen. Chaffin Smith for the transport of the Philippine Scouts, the archipelago, have been completed at Shanghai, where these vessels have been for the last three months. They will be sent home to be sold and it is believed that one of them will go to New York.

The ports of the island of Leyte have been closed since the 1st of June. The reason given for the closure is the fact that an aggressive campaign against the bandits there, but have refused the assistance of the United States troops in this work. Maj. Henry Allen, chief of the native constabulary, will probably personally take command of his forces in Leyte. Insurgent flags are now defiantly flying in many places on the island.

## GREAT BRITAIN'S COLONIAL POLICY.

New York, June 11.—Archibald R. Colquhoun's paper just read before the colonial institutes, was an able and comprehensive survey of the future policy of the British empire as essentially a colonial policy, cables the London correspondent of the Tribune. It was not an alarmist paper, but a cool and well reasoned argument pointing to the conclusion that the empire must be bound together by federation. Mr. Colquhoun advocated, with the approval of a large and intelligent audience, a closer commercial union between the mother country and the colonies; the representation of the colonies in the imperial parliament; and measures of defense. He discussed the project of a British Zollverein and preferential duties within the empire without committing himself to any definite scheme, and concluded that the empire must be bound together by federation. Mr. Colquhoun's paper was closely followed, and his warnings against one-sided free trade in a protection world, and against the annexation of British shipping lines by American capitalists, when Germany was in a position to command the maritime alliance, were warmly applauded.

Col. Denison presented the argument for levying a war tax on all imports in British ports with force and lucidity, and replied to both James Bryce and John Morley's arguments against the bread tax.

Gen. Tuzer from Queensland, discussed from proposals for a British Zollverein and emphatically declared that Australia will bind themselves to supply a permanent force of one hundred thousand soldiers for the imperial defense and contribute liberally to the naval armament, but will not ask England to introduce a Zollverein which would be unfair to her own people.

The discussion was continued by several eminent colonial representatives and was a most animated one.

New Police Protect Criminals.

Minneapolis, June 10.—Irwin A. Gardner was found guilty tonight of having accepted a bribe as special officer to procure police protection for gambling establishments.

The specific charge was that Gardner had accepted \$25 from Bill Edwards, who has been convicted of

## FACTORS IN THE COAL STRIKE.

The above halftone shows a typical group of breaker boys employed in the Pennsylvania mines and now among the strikers. Also late portraits of President T. D. Nichols, District No. 1, United Mine Workers, and John T. Dempsey, Secretary District No. 1 United Mine Workers, both prominent in the news of the big industrial struggle.

swindling. Gardner, however, is lost sight of in the scandal that his conviction unfolds. He was the amanuensis of Mayor Ames, and the prosecution sought to show that such bribes as he accepted were taken with at least the connivance of executive members of the city administration.

Police Chief Ames, brother of the mayor, is now under indictment and will be placed on trial within a few days. The state's case rested on the testimony of men who asserted that money was regularly paid to Gardner and that he distributed it among members of the administration, the consideration being immunity from police interference, not only of shark gaming establishments, but of various other places of crime, including social evil resorts.

## FRENCH COMMISSION EXPRESS GRATITUDE.

St. Louis, June 11.—The following telegram from New York has been received from M. Michael Lagrange, commissioner general of France for the Louisiana Purchase exposition: "Am about leaving the United States. I beg to address you on behalf of my government the expression of my sincere thanks for the most cordial welcome you have extended to the commissioner-general for France. Count and Countess de Rochambeau and all other members of the delegation have all attentions shown them during the whole trip and their stay in St. Louis. We have all been happy to see what the future exhibition promises to be and we are already certain that under your high direction it is assured of a great success."

President Francis responded as follows: "Message received. Wish you pleasant and safe journey home. Enjoyed your visit and hope result will bring more closely together the people who formerly owned this fair country and we are already certain that under your high direction it is assured of a great success."

## Cuban Sugar Output.

Havana, June 11.—An official report just published shows that 724,000 tons of sugar were manufactured in Cuba between January 1 and June 16. Two hundred and thirty-eight thousand tons of this sugar was shipped away from the island, and the remainder is being held to await the result of the movement to receive reciprocity with the United States.

## Vassar Alumnae Exercises Close.

Poughkeepsie, June 11.—The annual exercises of the Vassar association of Vassar college closed last night. The class day exercises were held out of doors. In the order of the procession the junior class led, headed by its marshal, Ethel Dean of San Francisco. The exercises included the class history by Caroline Sperry, North Adams, Mass., and Nina Eldred, Coronado Beach, Cal.

## Sea Rises at Fort de France.

St. Thomas, D. W. I., June 11.—In the course of the eruption of Mont Pelée which occurred June 6, the sea rose about 28 inches at Fort de France and then fell again. The rise of the water did not cause any damage.

The French cable repair ship Puyeffe was directly opposite the lower crater of the mountain June 6, grappling for a cable five miles off shore, when dense black clouds shot down from the volcano in the direction of the

sea. This phenomenon was similar to that of May 8, but the clouds moved in another direction. The Puyeffe's quarters died from the spot at full speed and the clouds followed the steamer about one mile astern. The vessel's decks were covered deep with ashes, mud and stones which rained from a huge cloud that had shot up to a great height from the top of the crater. Ashes from this cloud fell upon the island of St. Lucia. A few persons who were in boats between Le Precheur and Carbet near St. Pierre lost their lives in the eruption of June 6.

Bernhardt in "Romeo and Juliet." London, June 11.—Since Sarah Bernhardt arrived in London it has been finally decided to produce "Romeo and Juliet" in the United States during her tour of that country, which will begin next October.

## Arabs Massacre a Caravan.

London, June 11.—The Vienna correspondent of the Daily Express says that a report has reached there from Constantinople to the effect that Arab tribesmen have massacred a caravan of wealthy merchants in the desert at a point 100 miles from Koweit in Asiatic Turkey. According to the Constantinople report, only 20 persons out of the 500 who composed the caravan escaped.

## Chicago to Have a Subway.

Chicago, June 11.—Former Mayor Harrison, Washington, D. C., will soon ask the council for permission to build a subway, extending to all parts of the city and nonexclusive of the entire downtown district. An expenditure of between \$4,000,000 and \$50,000,000 is contemplated by the projectors.

## A RECRUITING CANARD.

Stated in Commons Lobby U. S. Army  
Officer is Enlisting Men in London.

Matter Will be Mentioned in the Commons  
the Coming Week—Story  
Without Foundation.

New York, June 11.—It has been stated in the lobby of the house of commons, says a Herald dispatch from London, that an officer of the United States army is at the present time in London enrolling recruits for service in the Philippines from the ranks of soldiers who are returning from South Africa. The matter will be mentioned next week in the house of commons in the form of a question by one of the members.

United States army officials pronounce the rumor ridiculous and absurd, especially in view of the fact that the American army is fast being reduced in numbers in the far east and the soldiers are coming home by regiments.

## King Albert Much Better.

Berlin, June 11.—King Albert of Saxony, who has been ill for some time, has so far improved that the Saxon cabinet has dissolved its permanent sittings. The Crown Prince and Crown Princess of Saxony have left Berlin for Dresden. This step is explained on the ground of expediency, it being well known that the heir to the throne should be at the Saxon capital immediately to take the oath in case of necessity.

King Albert has granted several pardons. The king's confessor, who has been at his majesty's bedside, declares the king's condition to be still most critical.

## Reformed Church of America.

Asbury Park, N. J., June 11.—The general synod of the Reformed Church in America at last night's session discussed the question: "May students in the seminary being educated for the ministry marry while pursuing their studies?"

Some members of the synod contended that the call to the ministry comes at the time when the young man who is able to support a wife, and they argued that prohibition of this kind would serve as a hardship on such students. It was concluded that the poor student who was being educated at the expense of the board was handicapped in the way of matrimony, and that he must prefer to keep his carnal inclination under curb until prosperous days. The report of the committee on education showed a large decrease in the number of candidates for the ministry.

## Capt. Catermole Exonerated.

New York, June 11.—Capt. Henry Catermole of the Staten Island ferry boat Middletown and Capt. Henry S. Wicks of Edwin Gould's steam yacht Alleen have been exonerated by a coroner's jury from complicity in the death of John Colt Atterbury, a broker, who was killed in a collision of the two vessels on May 19 last off Governors Island in a dense fog.

## Practicing Many New Dances.

New York, June 11.—Many new dances are being practised by delegates to the convention of the Normal school association, masters of dancing of the United States and Canada, now in session here. They will be officially announced tomorrow. Among them is a minuet of the seventeenth century. This convention has decided to be one of the most fashionable dances of the coming season. Seventeenth century costumes were worn to heighten the effect.

## REVOLUTION IN VENEZUELA.

General Matos Personally Takes  
Command.

IS MARCHING ON CARACAS.

Castro Preparing to Make a Vigorous  
Resistance—Hopes to Bar the In-  
vasion Far from City.

Port of Spain, Trinidad, Wednesday, June 4.—(Correspondence of the Associated Press.)—Gen. Matos, has personally taken command of the Venezuelan revolution, and was on June 1 at Urica, 20 leagues distant from Carapano, marching toward Caracas with an army which some persons estimate at 5,200 and others at 7,500 men.

To believe, however, that he will reach the capital and take possession of the presidency without a deadly struggle would be an illusion. Gen. Castro is preparing to offer resistance, and hopes to bar the invasion either in the plains of Carabobo, or in the valley of the Tuy.

This is not the only direction in which the president's political horizon is menaced. Coero, Valencia and Barquisimeto are all more or less in the power of the revolutionists. At Coro, Gen. Riera and Coligni have effected a junction and are absolute masters of the environs. Revolutionary troops enter the city of Valencia every night, and as the town is no longer lighted, give themselves up to all sorts of reprisals. Even Lagunaira, the port of Caracas, is attacked nightly by armed bands, who on the night of May 5 killed the military chief of Marquetia before his own door.

Prest, Castro's political conduct leads to the belief that before his departure he will indulge in all sorts of extra arbitrary acts. He has lately suppressed the newspapers El Tiempo and La Linterna arrested the manager of the bank of Caracas, Mr. Castillo, imposed on the widow of the late Guzman Blanco a forced war contribution of \$1,000,000 and has arrested the president of congress, Gen. Tosta Garcia, and the president of the Societe Francaise, M. De Vidale Rigo, a highly respected man, on very slight suspicion. He also caused his faithful officer, Gen. Davila, the vanquisher of El Mocho, to be arrested after a very violent scene at the house of Miraflores, during which Davila reproached him with his ingratitude.

Everybody is expecting the imposition of forced war contribution. Business is paralyzed, and the banks are without specie. The bank of Caracas, the capital of which is six million bolivars a boliviar is equivalent to about 20 cents, has only 125,000 bolivars in its coffers, that is to say, about \$25,000.

Whatever may be the result of the revolution, Gen. Castro said to one of his intimate friends a few days ago: "I shall show them that I am neither Andruera nor Andrade, whom they sent to La Guaira in a basket. If I leave my palace at Miraflores it will be feet foremost."

## PRESIDENT TO UNITARIANS.

Boston, June 11.—President Roosevelt has written a letter to Rev. Charles E. St. John, secretary of the American Unitarian association, in answer to the secretary's letter transmitting to the president the resolutions adopted at the annual meeting of the American Unitarian association concerning the situation in the Philippines. The president's letter follows:

"My dear sir—I beg to thank you for your very kind letter of the 21st ult., enclosing the memorial of the American Unitarian association passed at their annual meeting, May 22, 1902. I am happy to be able to say that the bill which has just passed the senate, will, if enacted into law, enable us to proceed even more rapidly and efficiently than hitherto along the lines of securing peace, prosperity and personal liberty to the inhabitants of the Philippine islands. There is now almost no 'policy of coercion' in the islands, because the insurrection has been so entirely overcome that save in a very few places peace, and with peace the policy of conciliation and good will obtains throughout the Philippines. There has never been any coercion save such as was absolutely inevitable in putting a stop to an armed attack upon the sovereignty of the United States, which in its last phases became mere brigandage."

"With great regard and assuring you of my hearty sympathy with the purpose set forth in your letter and actuating the members of the American Unitarian association as regards peace and justice in the Philippines, I am, very truly yours, 'THEODORE ROOSEVELT.'"

## Practical Test of Naval Theories.

Washington, June 11.—After several years of almost entirely theoretical work, the general board of the navy is now prepared to demonstrate by practical test the soundness of its theories. Rear Admiral Philip H. Cooper has been placed "in charge of the preparation for war of the district extending from Chatham Light, Cape Cod, to Barnegat Light, New Jersey."

## Had Money in His Stockings.

New York, June 10.—In preparing for burial the body of James Sage, a circus man, who died Sunday at New Brunswick, N. J., the undertaker found \$1,250 in one of the dead man's stockings. Sage was a native of Connecticut, Pa.

the Pacific coast. These two officers will follow out the plans of the board by placing the defenses of the coast which come under the control of the navy in condition best to withstand a mimic attack of a foreign fleet, simulated by the North Atlantic fleet on the one side and the North Pacific squadron on the other.

## U. S. Shipbuilding Co. Incorporated.

New York, June 11.—Articles of incorporation of the United States Shipbuilding company, just formed with a capital of \$30,000,000 not including \$15,000,000 in bonds, probably will be filed in Trenton, N. J., tomorrow. The president of the corporation probably will be H. T. Scott of San Francisco with Lewis Nixon as vice president. These two officers possibly may be interchanged, Mr. Nixon being made president.

## Forest Fires in Mountains.

Denver, June 11.—Considerable anxiety is felt by federal and state land officials over the danger of forest fires in the mountains. At present there are three fires raging in Colorado, and should the dry weather continue a vast amount of damage will be done. For four days a fierce fire has been devastating the heavy woods near Red Cliff, in Eagle county. Near Rendell, 50 miles west of Leadville, another fire is raging while the third is reported southwest of Morrison. It is declared that the fires were all maliciously started.

## Starting New Towns in Colorado.

Pueblo, Colo., June 11.—Starting of new towns in the west has become infrequent. A full grown town with all the trimmings has been formally opened near the Bassick and Hector mines, eight miles east of Silver Cliff, and near the Bassick mine. Its name is Custer City. The houses were built here in sections and shipped by rail to West Cliff and then by teams up the hill. Speeches, music and feasting were the features of the opening celebration. The principal speaker being ex-Gov. Alva Adams. Col. A. A. Pope of Boston is a prominent backer of the new town.

## Oil Gusher in Indian Territory.

Oklahoma City, June 11.—An oil gusher has been struck at Red Fork, I. T., which is pronounced by experts as being one of the most promising discoveries in the Indian Territory oil field. Oil was struck at a depth of 1,500 feet. Experts say the quality is first class and the supply practically inexhaustible. The Red Fork field has been under development for about a year and this well is by far the best strike of oil yet made. The people of Red Fork are greatly excited and believe their field will eventually rival Beaumont. Many prospectors are arriving to look at the field.

## Illicit Distillery Near New York.

New York, June 10.—For the second time within a week, an illicit distillery has been discovered near this city. Both places were found by firemen called to the scene through alarms. The second "still" was in a small house in the Bronx. When the firemen entered they found two young children alone in the house. Little trouble was experienced in quenching the fire. In a corner were found two large boilers and in another 40 barrels of whiskey and maize. On a stove was a quantity of "stuff" which might have boiled over and caused the blaze. The children told the police they lived in the house with their mother, who was employed there as housekeeper. No information could be obtained from them as to the proprietors of the place and no arrests were made.

## A Gift to Princeton.

New York, June 10.—In connection with the commencement exercises at Princeton, formal announcement has been made of a gift of \$50,000 by the classes of 1900 and 1901 to be used for special purposes at the university.

## Had Money in His Stockings.

New York, June 10.—In preparing for burial the body of James Sage, a circus man, who died Sunday at New Brunswick, N. J., the undertaker

## KILLED ON THE SOUTHERN RAILWAY.

Macon, Ga., June 10.—The southbound passenger train on the Southern railway which left Atlanta at noon for Macon collided with a northbound freight near Juliette, twenty-three miles north of Macon, at 2:10 o'clock this afternoon. The engineer and fireman of the passenger train were instantly killed and nineteen of the passengers were more or less severely injured.

The dead: James T. Pittman of Atlanta, engineer of passenger train. Ed West, colored, Atlanta, fireman of passenger train. The passengers seriously injured are: Isaac Bashinsky of Macon, nose and right arm broken. Mrs. Bashinsky, severely shocked. Dr. Walker J. Brown of Atlanta, skull and knees severely injured. Dr. M. N. Nixon of Rome, collar bone broken and lower jaw hurt.

## Woman's Nature

Is to love children, and no happy without them, yet the ordeal through which the expectant mother must pass usually is so full of suffering, danger and fear that she looks forward to the critical hour with apprehension and dread. Mother's friend, by its penetrating and soothing properties, allays nausea, nervousness, and all unpleasant feelings, and so prepares the system for the ordeal that she passes through the event safely and with but little suffering, as numbers have testified and said, "it is worth its weight in gold." \$1.00 per bottle of druggists. Book containing valuable information mailed free.
